JOWI 98.1 FM Mobile App

Details we need from the station before launch

The app is built and working. Live streaming, the show schedule, listener messages, polls, news and the presenter booth all work today.

What's left is the station's own information: contact numbers, social pages, photos and prices. Some of these are still sample values. Please fill in what you can and send it back. Photos can be sent separately on WhatsApp or email.

Once we have these details, the app updates on listeners' phones automatically. They won't need to reinstall it.

7 Advertising NEEDED

The app has an "Advertise with us" page so businesses can book ads. The prices below are **samples we made up**. Please correct them, or choose to hide prices.

PACKAGE	SAMPLE PRICE IN THE APP NOW	REAL PRICE
App banner Advertiser's banner shown in the app while people listen	KES 15,000/week · 45,000/month	
Spot ads 15–30 sec commercials on air	From KES 3,000/spot · weekly from 18,000

Full campaign Radio + app banner + mentions	From KES 150,000 (4 weeks)	

How should prices appear?	☐ Show the real prices ☐ Hide prices, show "Contact us for rates"
Sales contact for advertisers Name + phone/WhatsApp, if different from the studio line	
Any current advertisers to show in the app now? For each: business name, short headline, link or WhatsApp number, logo, start and end dates	

8 Quick decisions NEEDED

Live listener count The app shows how many people are listening. If the live count can't load:	☐ Hide the count (recommended) ☐ Show an estimated number
Who should have access to the Presenter Booth? The booth is where presenters read news, see messages and send alerts. Access uses one shared password.	
Who can send push notifications to all listeners? e.g. "We're live with a special guest!"	☐ Presenters on duty ☐ Station manager only

9 Publishing on Google Play NEEDED

To put the app on the Play Store under the station's name, the station should own the store account. That way the app stays yours even if the developer changes.

Google Play developer account One-time fee of US$25, registered by the station	☐ Station already has one ☐ Station will create one ☐ Developer should create it for us
Google (Gmail) account that will own the app Also used for push notifications (Firebase)	_____
App name on the Play Store	_____ *Suggested: "JOWI 98.1 FM"*
Support email shown on the Play Store Google requires one. Listeners use it for app help	_____
Privacy policy Google requires one. We can draft it for the station to approve	☐ Please draft one for us ☐ We have one: link below _____

10 Anything else? NICE TO HAVE

Upcoming events, competitions, segments you want promoted, or anything you'd like the app to do.

How to send this back: fill it in (typing or handwriting is fine), then send a photo or PDF of it on WhatsApp or by email, together with the presenter photos and logos. Items marked NEEDED are what we need to launch; everything else can follow later.
